

Time	Event / Activity	Location	Description
10am	Fair Starts	Indoors and outdoors	Meet and talk with local clean energy businesses, nonprofits and community groups about their offerings and programs.
11am	Drive/Ride Electric Expo starts	Outdoors – front of building	Monadnock Electric Vehicle (EV) owners and Green Wave, a NH dealer of used EVs, show and explain their rides – including e-bikes! Test rides available for some EVs - and a kid EV is also available to ride!
	Face painting starts	Indoors	Free face painting for kids, performed by Soul Blossom Body Arts.
	Workshop: Savings with Cold Climate Heat Pumps for Heating and Cooling (1hr)	Indoors – dining room	Learn from an energy expert, Doug Waitt of Design Day Mechanicals, about how current heat pump technology allows us to transition from oil-based heating systems and inefficient air conditioning units or systems to cost-saving, modern heat pump systems that clean up indoor air, reduce energy costs and can improve our health.
12:05pm	EV Mini-talk: Incentives that cut your EV purchase price (a lot!) (10 min.)	Outdoors - in front at Drive E area	Learn from an EV owner living in Peterborough about federal incentives that offer big tax breaks this year and translate into up-front discounts in 2024! The presenter is the Monadnock Sustainability Hub's Program Manager, who charges exclusively at the town's public EV chargers at RiverWalk (located by downtown shops).
12:15pm	EV Mini-talk: Charging your EV (10 min.)	Outdoors - in front at Drive E area	Monadnock Sustainability Hub EV Team volunteer and Nelson resident Dave B. explains charging at home and on the road – with a home charger for show and tell!
12:30pm	Workshop: Rebates and discounts for your home energy upgrades (1hr)	Indoors – dining room	Learn from representatives of the Peterborough Renewable Energy Project (PREP) about how home energy efficiency improvements and electrification are now cheaper, even for renters and regardless of income!
1pm	Face painting ends	Indoors	
1:35pm	EV Mini-talk: EVs 101 (10 min.)	Outdoors - in front at Drive E area	Learn from a true expert – previously a MA state employee responsible for building out EV charging who is also a long-time EV owner. He will talk about the basics of EVs, including efficiency, superior performance and the Fun Factor!
1:50pm	EV Mini-talk: Long road trips with your EV (10 min.)	Outdoors - in front at Drive E area	A retired engineer living in Keene who was an early-EV adopter talks about his experiences traveling with his EV, so you can do the same!
2pm	Fair Ends	Indoors and outdoors	Thanks to our visitors, exhibitors, volunteers, and our Silver Sponsors: Froling Energy and BlocPower! We hope to see you again next year!
